

HaDEA Info - Day :

EU Funding Programmes for Health and Digital Transformation

Tuesday 14 May 2024

Experiences and challenges from Greek participation to the
programmes

HELLENIC REPUBLIC
Ministry of Digital Governance

General Secretariat
for Information Systems & Digital
Governance

Dr. Eleni Chaniotaki
Coordinator of NCPs for DEP in Greece

Challenges from Greek participation to DEP

- DEP projects are not compatible with other funding programmes, e.g. NSRF
- Absence of regular reporting about proposals and projects by Greek consortia e.g. through a portal
- Sustainability of projects implemented by academia and businesses. Their outcomes are usually not diffused to Public Administration
- Complex procedure for guarantees approved by the eligible country with no specific guidelines. These are being requested by the eligible country and afterwards will be assessed by EC.
 - (a) control over the applicant's corporate structure and decision-making process is not exercised in a manner that restrains or restricts in any way its ability to perform and complete the action;
 - (b) the access by non-eligible third countries or by non-eligible third country entities to classified and non-classified sensitive information relating to the action will be prevented;
 - (c) the persons involved in the action will have national security clearance issued by a Member State where appropriate;
 - (d) the results of the action shall remain within the beneficiary and shall not be subject to control or restrictions by non-eligible third countries or other non-eligible third country entities during the action and for a specified period after its completion.
 - (e) For applicants established in the EU and controlled from a third country and established in Associated Countries, that are not subject to export restrictions to EU Member States on results, technologies, services and products developed under the project for at least 4 years after the end of the action, in order to ensure the security of supply.

Thank you for your attention!
