

CraNE JA

(2022- 2024)

A challenge for Cancer Care and Oncology Institutes across Europe

Anastasia Balasopoulou,
WP2 Leader
1st YPE of Attica (Competent Authority), Greece

EUROPEAN NETWORK for CCCs - Comprehensive Cancer Centres -

Main Objectives of CraNE JA

To prepare the necessary preconditions, administrative, professional and those related to high-quality performance towards Networks of Comprehensive Cancer Centres.

To link the development of Comprehensive Cancer Care Networks (CCCNs) in EU level with CCCs established in individual Member States.

To provide an assessment on sustainability and feasibility of networking of CCCs.

25 Countries - 44 Partners

Budget: 3 million EUR

co-funding by EC

CraNE Work Packages

WP1: Coordination

WP2: Dissemination

WP3: Evaluation

WP4: Sustainability (Maturity Model)

WP5: The EU Network of CCCs

WP6: Organization of comprehensive, high-quality cancer care in Comprehensive Cancer Care Networks (CCCNs)

WP7: Framework and criteria to enable the implementation of CCCs within an EU Network

WP8: Equitable access to high-quality care and research: networks in the context of CCCs

Deliverables:

- ✓ D2.1 Dissemination Strategy (M2)

Milestones:

- ✓ MS3: Dissemination Strategy/Graphic identity and leaflet (M2)
- ✓ MS4: CraNE Website (M2)
- ✓ MS5: Broader communication tools → newsletters (M6 – M24)

Affiliated Entities

- “Agios Savvas” _WP6, WP2
- “Laiko” _WP7, WP2
- “A. Syggros” _WP7, WP2

Deliverables (future deliverables):

- D2.2 Dissemination Report (M24)
- D2.3 Layman’s version of final report (in simple language for general public) (M24)

European Network of Comprehensive Cancer Centres

(1 OCTOBER 2022 – 30 SEPTEMBER 2024)

✓ 25 EU COUNTRIES

✓ 46 ORGANIZATIONS

[Explore the schedule](#) 

CraNE Team

Expected Outcomes

- The establishment of a common and concrete understanding
- Consensus-based model for CCCs
- The definition of clear recommendations
- The identification of current practices and patterns
- The balance between organizational aspects and quality of care of the CCCs
- A realistic and functional framework and criteria (prerequisites) to enable the implementation of CCCs within an EU Network

Critical Concepts and Issues

1. Comprehensiveness (what it is meant by the term)
2. Accreditation vs Certification
3. One Hospital/ Division or more co-working
4. Number of Types of Cancer treated (main vs all)
5. Research
6. Quality & Standards to be part of the Network

↓
BEYOND any Certification:

Definition and Standards setting, feasible to be achieved by almost all MSs, to be developed and met in order an Oncology organization (Hospital or division) become CCC.

- HOW TO STRENGTH THE GREEK ONCOLOGY SERVICES - to respond the standards and be on board

Next step ... “EU net CCC” _ JA _ 2024 -2028

- **IMPLEMENTATION PHASE** on the basis of CrANE results
- **TARGET:** at least **ONE CCC /MS**

Greek Consortium

✓ Competent Authority: 1st Y.PE.

✓ Affiliated Entities:

- Agios Savvas,
- Laiko,
- Alexandra,
- Attikon,
- GOHK
- AUTH: Workshop for Biomedical Studies

The main roles of 1st Y.PE. & Greek Consortium

- Two Pilots (Alexandra & Attikon) _ **WP9** Leader: Germany
- Development & Run of the Portal _ **WP5** Co-leader: 1st Y.PE.
- Participation in WPs:
 - Governance (Laiko) & Network development
 - Quality (Agios Savvas) & standards of Care (GOHK)
 - Tool for Assessment of services (AUTH)
